## ***\$13.4 million roadway project coming to Council District 3***

District 3 City Councilwoman Jennifer Ramos, the City of San Antonio's Capital Improvements Management Services Department, and community members will turn ceremonial shovels marking the start of construction for a \$13.4 million roadway and drainage-improvement project.

A groundbreaking ceremony for the Rip Rap 69 Phase II-D project is scheduled for **10 a.m. Tuesday, Aug. 5**, in the cul-de-sac at Canavan Street and Marney Plaza, behind Harlandale Civic Center (115 W. Southcross Blvd).

Rip Rap 69, funded by the 2007 General Obligation Drainage Improvement Bond and a 2005 Storm Water Revenue Bond, will provide 30-foot street sections and drainage improvements for Brunswick, Fitch and Canavan streets from Interstate 35 eastward to the drainage channel, and Bruhn, Bodie and Donegan streets from the drainage channel to Canavan.

In addition, the project includes curbs, driveway approaches and 4-foot sidewalks. Also included are channel improvements from I-35 eastward to the box culvert system at Marney Plaza.

Bain Medina Bain Inc. is the consultant and San Antonio Constructors is the contractor. Construction is scheduled for completion in the summer of 2010.
